Gap insurance

What is covered?

In case of theft or total loss (applies only to passenger cars and small trucks with total weight of up to 3.5 t) we will pay the difference between the purchase price of the insured vehicle specified in the insurance contract and its actual (market) value. Purchase price shall mean for the purpose of this insurance the new replacement value of a new vehicle of the same type and with same equipment as at date of conclusion of the insurance contract, which is also the maximum limit of compensation.

The insurance covers only vehicles not older than 6 months from the date of first registration (assignment of license number) or from their first use as a new vehicle, whichever occurred first, at the time you conclude the insurance contract.

Term of insurance

The coverage is valid for the maximum period stipulated in the insurance contract.

What is not covered?

- If you did not meet conditions for compensation for theft or loss due to road accident in other types of insurance, we cannot pay compensation from GAP insurance.
- If your vehicle is more than 6 months old at the time you conclude the insurance contract.
- Any loss incurred after the expiry of the period stipulated in the insurance contract for which the GAP insurance has been made.

What are general exclusions of the product?

Claim happened – what comes next?

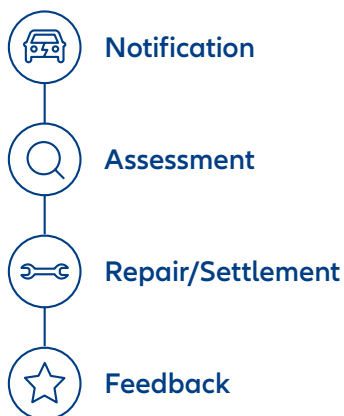

Having an accident is never a pleasant experience. Unfortunately, sometimes it happens.

2.4

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

In that case, first and foremost, make sure to immediately:

- Ensure safety (switch on warning lights, use reflective vest, install warning triangle).
- Provide first aid, if necessary, and call an emergency 155.
- In case of a collision with a third party vehicle/property (when the offender is not known or the participants in the traffic accident were injured or killed) or theft, call the police 158.
- If you need towing of your vehicle, call our assistance +421 2 50 122 222.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

Notification

Once the safety is ensured, for faster resolution notify a claim in all cases as soon as possible - preferably 24h after the event happened or you found out about it. You can notify the claim:

- via www.allianz.sk/poistne-udalosti
or
- by phone + 421 2 50 122 222

Correct claim notification is the basis of a fast and fair claim settlement. For faster resolution provide all information that is necessary to determine the cause, scope and type of damage (basic information about damaged vehicles, injured persons) and submit necessary documents.

If you knowingly communicate misinformation about the origin or extent of damage, or you share only partial information when you report the claim, we can in case of MOD claims:

- Demand that you cover the costs of incident investigation.
- Reduce compensation we will pay.
- Fully reject paying any compensation.

Once your claim is notified, you will receive by mail or text message a personalized link for the web service - Claims Tracker which will inform you and be your guide during all steps leading to claim settlement and make communication with us easier.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

Assessment

Before we settle a claim, an assessment of the damage needs to take place. Through the Claims Tracker, you will receive all the relevant information about the assessment process.

You will be asked to digitally provide all the documents that are necessary to perform the assessment, as an example:

- pictures of the damage,
- accident form (required by law if another party is involved),
- police/other official report, if the police or other authorities were involved.

In case you face some technical issues during the digital upload, or the quality of the uploaded photos is not sufficient for us to perform the damage assessment, no worries! In this case, we will inform you that the required photos would be obtained by our expert.

Your co-operation is required during vehicle inspection. We may not pay any compensation if you or the insured refuse the inspection and as a result, we will not be able to verify the type and extent of damage or circumstances that caused the damage.

The assessment finishes with a coverage confirmation from us, and proposal on next steps regarding the settlement options.

Do not repair the vehicle without prior agreement with us. You can start with the repair if you have submitted evidence of the extent of damage and we do not respond within 7 days after we received the claim notification.

Calculation of compensation

The damaged party can submit a claim for compensation from MTPL directly to us, however he/she must provide evidence that the claim is justified and what is the amount.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

We pay compensation to the damaged party. If you pay the compensation or its part directly to the damaged party, we will reimburse you for the paid compensation up to the maximum amount we would be liable to pay according to applicable laws.

We pay compensation in money up to the maximum limit stipulated in the insurance contract.

Compensation paid from other coverages included in the package.

In case of other coverages, we pay compensation directly to you (the policyholder), in case you incur any property damage or suffer bodily injury.

You are entitled to the payment of compensation if you fulfil your obligations and contractual conditions. We will pay costs of determination of the causes and extent of the damage by an expert only if we request such investigation.

If we find out that payment of compensation was unjustified, we are entitled to request its refund from the person to whom it has been paid. Upon your request, we can assign compensation to another entity.

We pay compensation in EUR, up to the maximum amount of limit of coverage specified in the insurance contract. In case the option „Sum insured (price) determined by the Policyholder“ is selected in the insurance contract proposal, maximum claim payment is the respective amount.

We will deduct from the compensation the agreed deductible, value of residues, outstanding premium, recourse (penalty) claims or other receivables.

If only one insured event has been reported but the character of damage unambiguously indicates several insured events, the Insurer shall subtract deductible for each such event.

We are entitled to reduce each compensation by the respective percentage of underinsurance. To find out the value of vehicle scrap, your vehicle will be registered in a vehicle scrap market which, if you decide to sell the scrap, will arrange the sale.

If you take measures which, in view of the circumstances of the event, may be considered as necessary to prevent an imminent insured event or mitigate its consequences, for security, public-health or other justified reasons, we will reimburse you for such efficiently spent costs, if they are in due proportion to the actual (market) value

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

of the vehicle at the time of the insured event. If such compensation, together with other compensations paid for one insured event, exceeds the sum insured, we pay the costs only up to the amount of actual (market) value of the vehicle or of its parts.

Deductible shall not be applied:

- If the vehicle is damaged or destroyed in a road accident and the policyholder, insured or the authorised person are not liable for the damage, i.e. the damage is covered by MTPL insurance of the party which caused the accident.
- In case of repair of windscreen after mechanical damage of the windscreen due to any accidental event, the damage may be repaired and no other part of the vehicle has been damaged at the same time.

Deductible is not applied to MTPL insurance, Legal support, Personal accident, Roadside Assistance and GAP insurance.

Subrogation

If you are entitled to claim from another party compensation of damages (refund of an amount that has been paid), this right will be assigned to us, the maximum amount being the compensation we paid.

If circumstances arise which justify assignment of your rights to us, please inform us about this as soon as possible and hand over all documents necessary for enforcing such rights.

Repair/Settlement

In case you decide to repair your vehicle, we offer a comprehensive network of partner repair shops, including an attractive set of benefits such as faster repair time, guaranteed service quality, direct settlement of the invoice costs with the repair shop without the need for you to have an out-of-pocket expense.

As soon as the repair is complete and the vehicle is ready for pick-up, you will receive the confirmation via your personal Claims Tracker link. You might need to pay a deductible at the repair shop when you pick up your vehicle. It depends on your policy and type of damage.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

If your vehicle's total value is lower than 90 % of the cost of the repair, it is the so-called total loss and is settled by cash, rather than a repair.

If the damage happened abroad:

- You can make a partial repair abroad if it is necessary to continue a safe drive, but you should contact us to agree on it.
- We will pay you compensation according to the average prices in country, where the repair was made (if the repair made abroad was not necessary).

In case you select an option to settle the claim through cash offer, we guarantee its payment within 2 business days after receiving the statement of acceptance from your side.

We will pay the compensation in case of MOD claims to:

- you, if the insurance covers your property, or other person entitled to settlement according the insurance contract,
- your heirs – if they have a legitimate title,
- your legal successors - in the case of transformation of a legal entity.

If there is a deductible in your agreement, the compensation for MOD claims will be reduced by that amount.

Please note, that your next-year's premium might increase in case you had a claim.

If the subject of coverage is damage to the insured vehicle, we shall provide compensation calculated pursuant this part of the Guide.

After the repair of the damaged vehicle in the repair shop and delivery of an accounting document (receipt/invoice) for the repair, we will pay efficiently spent and adequate costs spent on the repair connected with the respective insured event in the amount invoiced by the repair shop, as follows:

Repair in a partner repair shop:

- Material (spare parts, paint etc.) up to the maximum amount of the price specified by the manufacturer/ authorised importer of vehicles of the respective brand and type.
- Cost of work calculated according time standards, technological procedures and per-hour rate specified by the manufacturer/ partner repair shop of the respective brand and type of vehicle.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

Repair in a repair shop which is not our partner:

- Material (spare parts, paint etc.) up to the maximum amount of the price specified by the manufacturer/ authorised importer of vehicles of the respective brand and type, if their procurement from an authorised supplier can be proved by evidence. If this is not the case, we will pay the maximum amount of the price of material of satisfactory quality.
- Cost of work calculated according time standards, technological procedures specified by the manufacturer of the respective brand and type of vehicle. The per-hour rate up to maximum of the usual per-hour rate charged by similarly equipped repair shops in the region where the repair is done.

If you request in writing a cash settlement according our calculation, we will pay costs connected with the insured event as follows:

- Material (spare parts, paint etc.) up to the maximum amount of prices determined by the manufacturer/authorised importer of vehicles of the respective brand and type, if you submit evidence of their acquisition from an authorised supplier. In other cases, up to the maximum amount of price of material of satisfactory quality.

If the spare parts are not of satisfactory quality and you do not submit documents proving their purchase, we will pay cost of:

- Material up to the maximum amount of 70 % of the price of original spare parts set by the manufacturer/authorised importer of vehicles of the respective brand and type, replaced in connection with the insured event.
- Cost of work calculated on the basis of time standards and technological procedures determined by the manufacturer of the respective brand and type of vehicle, and per-hour rate of EUR 20.

In case of a total loss, we can provide the contact to a person who is interested in buying the damaged vehicle.

If only tyres have been damaged due to vandalism, we shall pay compensation in the amount of costs of their repair, however, not exceeding their actual cash value.

In case of repair or replacement of a high-voltage battery, which is not covered by manufacturer's warranty, we shall pay cost of material up to the amount of actual cash value.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

You can get your vehicle repaired outside SR only upon our prior consent. We shall pay the costs of extrication, towing and storage of the vehicle damaged outside the Slovak Republic; we shall decide on the practicality, possibility, manner and scope of repair of the vehicle abroad before the repair is started. In case the vehicle has been repaired abroad without our consent, we shall pay the amount of costs which would have arisen in the Slovak Republic, or we shall pay only costs of repair necessary to continue driving the vehicle abroad.

Conclusion of claim handling

We will inform you that we finished handling of your claim and give you the result.

Feedback

Once the claim has been settled, we will ask for your feedback via your personal Claims Tracker link. Thank you for taking the time to share it with us. We highly value your opinion, and commit to continuously work on improving customer experience.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

FURTHER IMPORTANT INFORMATION

We are entitled to reduce compensation:

- If you provided incomplete or incorrect information and we calculated lower premium, we will reduce the compensation proportionally, applying the ratio of the incorrectly calculated premium and the correct premium.
- If the cost of repair is not adequate or efficiently spent. The reduction of compensation corresponds in such case to the amount of inadequate or inefficiently spent costs.
- By 50 % if you breach your obligations imposed by the Civil Code, generally binding legal regulations, or provisions of the Benefit Guide, which had substantial impact on the occurrence and/or increase of consequences of the insured event (e.g. disobedience of road signs, traffic lights, violation of maximum speed limit, handling a mobile phone while driving, unfastened seat-belt etc.).
- By 50 % if you did not report the accident to the police in accordance with special regulation.
- By 20 % in case you left the registration certificate in the vehicle and the vehicle is stolen.
- By 20 % for delayed reporting of the insured event to us (more than 15 days after the event, if the insured event occurs in SR, or 30 days, if the event occurs abroad).

Accepted into insurance may be also a vehicle with damaged parts; in such case, the following applies:

- The insurance does not cover, and there is no entitlement to compensation in case of damage which occurs during the term of insurance to parts damaged before insurance inception, if repair of such damage would be impossible or more costly than replacement by a new part.
- We are entitled to refuse to pay compensation for damage of aesthetic (visual) character which occurs during the term of insurance if the functionality or service life of such part has been preserved and other damage of such part existed before insurance inception.
- We are entitled to reduce adequately any compensation to which entitlement to refusal according previous paragraph does not apply, according the scope of damage existing before insurance inception, however, not more than by 30 %.

We are entitled to demand from you compensation of any payments to you if you knowingly provided untruthful information about important circumstances relating to our obligation to pay.

The most important information about your insurance

In this section we will inform you how we can unilaterally change the provisions of the Guide, about payment of premiums, how we can unilaterally change the amount of premium, validity of the insurance contract and what can trigger its termination.

2.5 THE MOST IMPORTANT INFORMATION ABOUT YOUR INSURANCE

Changes in the insurance contract, that may not be done unilaterally due to legal regulations or Benefits Guide, are made by an amendment agreed by both parties. The effective date of the change is specified in such amendment.

We are entitled to unilaterally change the wording of the Benefit Guide which governs the insurance contract by notifying you, latest 10 weeks before the end of an insurance period, about the new wording of the Benefit Guide which will apply to your insurance contract from the next insurance period.

If you do not agree with the new wording of the Guide, you are entitled to terminate the contract by a written notice given at least 6 weeks before the end of the insurance period in which the new Benefit Guide wording has been announced.

The insurance contract shall terminate upon the expiration of the insurance period in which the new Benefit Guide wording has been announced.

Unilateral change of the Benefits Guide does not apply to insurance contracts concluded for a definite period of time and to insurance with limited time validity (e.g. GAP insurance).

A deviation from the provisions of the Guide may be agreed in the insurance contract which becomes effective upon our written agreement. The chosen package will be changed into COMFORT in case of a total loss.

If the inception date of MTPL insurance differs from the inception date of the agreed package (PLUS, EXTRA, MAX) and total loss occurs before the inception of MTPL insurance, the insurance contract shall terminate upon the moment of occurrence of the total loss.

Period of insurance

The first period of fleet insurance is the period of time, for which premium is paid in agreed instalments. It begins at the moment of insurance inception and ends one day before the nearest anniversary day.

Each following period of insurance begins on the anniversary day and ends on the day preceding the next anniversary day.

The period of insurance of each vehicle insured within a fleet is governed by the insurance contract. The first insurance period of the vehicle insured in to fleet begins in the day, which is specified in the List of Vehicles. The end of the first insurance period of such vehicle is identical with the end of insurance period of the contract.

Payment of premiums

The amount and due date of premium is specified in the Premium Statement.

Annual premium of each vehicle is part of List of Vehicles.

In the insurance contract you can choose the frequency of premium payment. The Premium Statement is regularly issued according the agreed frequency of payment, in an aggregate for all contract. A Premium Statement shall mean a written or electronic notification, on the amount and due date of premium, sent by the Insurer to the Policyholder.

We deem a premium instalment to have been paid on the day when it is credited to our account.

In case of inception of the insurance of a vehicle during an insurance period, we shall invoice the pro-rata (proportional) premium, depending on the increase of the number of vehicles in the fleet. Such premium is payable at the due date specified in the Premium Statement.

What affects the premium?

- Tax and levy duties.
- Loss history of MTPL insurance.
- Loss history of other insurances, which are included in the package (except MTPL).
- Data stated in the insurance contract such as address, age or their change.
- Vehicle data stated in the List of Vehicles, such as engine volume, power, brand, model, type of use or their change.

2.5 THE MOST IMPORTANT INFORMATION ABOUT YOUR INSURANCE

We may adjust the amount of premium for the next period if loss ratio developed unfavourably (in respect of your insurance contract or all insurance contracts covering liability and own damage), the price of spare parts and repair work increases, or the consumer price index increases and this results in increased costs, in case of increased costs of policy administration due to factors independent from us, furthermore in case legal regulation, or decision-making practice of courts related to insurance industry. The new amount of premium becomes effective upon its notification sent to the postal address or email of the policyholder specified in the insurance contract.

If, due to incomplete or untrue information we calculated lower premium, we are entitled to the payment of outstanding premium including late-payment interest and, in case of breach of the obligation to state truthfully the purpose for which the insured vehicle is used, also to a contractual penalty.

Bonus

We provide discount – bonus for lossfree insurance history in motor vehicle insurance. In case of occurrence of an insured event, the entitlement to a bonus is cancelled from the following anniversary day.

Duration and validity of policy

Beginning of insurance

The insurance contract is made for an indefinite period of time. The inception of fleet insurance is specified in the contract. If you, as the Policyholder, accept several insurance proposals covering the same vehicles, such vehicles shall be insured under conditions set out in the first accepted proposal, unless otherwise agreed.

The insurance of a vehicle begins on the day, hour and minute specified in the List of Vehicles, however, not earlier than the effective date of the insurance contract. In case of inception of vehicle insurance during an insurance period, the insurance begins on the day, hour and minute specified in the List of Vehicles.

Termination of insurance

The insurance expires as defined in the provision of the Act or Civil Code.

The insurance contract expires:

- by notice of cancellation at the end of an insurance period,

2.5 THE MOST IMPORTANT INFORMATION ABOUT YOUR INSURANCE

- by expiration of the insurance of the last vehicle,
- by notice of cancellation given within 2 months from the conclusion of the insurance contract,
- if the (current) premium or single premium has not been paid within 3 months from its due date; the same applies if only a part of the premium has been paid,
- by agreement of both contracting parties,
- by expiration of the term for which the contract has been concluded,
- by notice of cancellation given after an insured event.

The insurance of a vehicle shall terminate by notice of cancellation:

- given within 2 months from the day it was added to the insurance contract,
- at the end of an insurance period,
- after an insured event.

After each insured event, you as well as we have the right to submit a written notice of cancellation of the insurance contract/vehicle insurance, however, not later than 1 month from the payment or refusal to pay compensation of the loss. The period of notice is 15 days and the insurance contract/insurance terminates upon its expiration.

The insurance of vehicle terminates also:

- In case, if vehicle specified in the insurance contract is registered to another person in the Car Register.
- If the motor vehicle ceases to exist or is deregistered in the Car Register or put out of operation on roads.
- Upon delivery of report of theft of the motor vehicle.
- By change of the lessee, if a lease contract is concluded in respect of the motor vehicle, stipulating the right of purchase of the leased property.
- If there is no legal successor of the policyholder.
- By the expiry of the period for which it has been concluded.
- By returning documents proofed MTPL insurance for vehicles deregistered from Car Register.
- If the vehicle is insured for the same purpose at several insurers and you do not inform us about it, we are entitled to give notice of termination of the insurance contract after an insured event, without a period of notice. The insurance expires upon the delivery of the notice to the policyholder.

Further reasons for termination may be set out in legal regulations.

After termination of the contract, we will issue a certificate of loss history, with the exception of termination due to non-payment of premiums.

2.5 THE MOST IMPORTANT INFORMATION ABOUT YOUR INSURANCE

If the insurance of vehicle terminates and there have been no insured events, we are entitled to premium for the time until the termination of the contract, and we will refund the unearned premium.

If the vehicle insurance expires in the first insurance period and during it an insured event occurs, for which we will pay the insurance compensation/benefits, we are entitled to premium as following:

- If you cause damage covered only by MTPL insurance (your vehicle is not damaged), we are entitled until the end of the insurance period only to the respective part of the premium.
- If you cause damage covered by MTPL and, at the same time, your vehicle is also damaged, but the damage is not classified as total damage, we are entitled to premium until the end of the insurance period only in respect of the part of premium for MTPL insurance.
- If you cause damage covered by MTPL and, at the same time, there is also total damage to your car, for which we pay compensation, we are entitled to premium until the end of the insurance period for all insurance types included in the package.
- If you cause or incur total damage only to your vehicle, for which we are obliged to pay compensation and there is no MTPL claim, we are entitled to premium until the end of the insurance period only in respect of the part of premium for other insurance types except MTPL.
- If the vehicle has been stolen and we become obliged to pay compensation of the loss, we are entitled only to the part of premium for insurance types included in the package with the exclusion of MTPL.

If the vehicle insurance expires in the next insurance period and during it an insured event occurs, for which we will pay compensation/benefits, we are entitled to premiums until the end of the insurance period in which the insured event occurred, as following:

- If you cause damage covered only by MTPL insurance (your vehicle has not been damaged), we are entitled only the part of premium for MTPL insurance.
- If you cause damage covered by MTPL insurance and, at the same time, your vehicle is also damaged (the loss is not classified as total damage), we are entitled only to the part of premium for MTPL insurance.
- If you cause damage covered by MTPL insurance and, at the same time, there is total damage of your vehicle, we are entitled to premium for all insurance types included in the insurance package.
- If you cause or total damage occurs only to your vehicle and there is no MTPL loss, we are entitled to premium for insurance types included in the package except MTPL insurance.

2.5 THE MOST IMPORTANT INFORMATION ABOUT YOUR INSURANCE

- If the vehicle is stolen and we have the duty to pay compensation, we are entitled only to the part of premium for insurance type included in the packages except MTPL insurance.

The insurance does not terminate upon the change of ownership of the insured vehicle. It also does not terminate by death of the policyholder or merger, consolidation or separation of a legal entity. In such case, the legal successor or the person authorised by heirs (if the inheritance procedure is not finished) replaces the policyholder. From the moment when legal successor (third party) replace policyholder in fleet insurance contract, the policyholder cannot insure another vehicle, unless agreed otherwise. The policyholder is obliged if he wants to keep continuity of insurance, report without delay facts that will or can result in a change of policyholder. If the policyholder does not report such information in time, it could cause that insurance expires without compensation.

If we find out that you knowingly answered untruthfully or incompletely our written questions regarding the concluded insurance contract, or if, after the conclusion of the insurance contract, it is proven that:

- identifying marks of the insured vehicle have been altered,
- the insured vehicle did not fulfil technical or legal requirements for concluding of an insurance contract (e.g. was not equipped by the required security devices), we are entitled to annul the contract.

We are entitled to enforce this right within 3 months from the day we find out such circumstance, otherwise the right expires. You as well as we must return everything we received on the basis of the insurance contract. We are entitled to deduct costs incurred in connection with the conclusion of the insurance contract.

The insurance does not apply to any damage to the vehicle which occurred before the inception date of the insurance.

Useful tips

In this section, you will find our tips on how to better protect your vehicle against possible loss.

Tips for safe driving

Do not use mobile phone, do not text and drive. Texting distracts you from the road and puts you and others in danger.

Before a longer journey, check if your mobile phone is fully charged. It will be useful in emergency.

Do not drink and drive. If you have been drinking alcohol, use public transport or taxi.

In case of towing of an immobile vehicle, always firmly secure the rope.

Pay attention to the speed limits, safe distance from other vehicles and road signs.

Decrease your speed in case of bad weather and bad visibility.

Take a short break every two hours.

Prepare your vehicle in advance for driving on ice and snow.

Be informed about the weather and current condition of roads.

Avoid driving behind trucks and lorries, as snow or ice may fall from them.

Check your tyres and windscreen wipers.

3 USEFUL TIPS

Keep a blanket, food and water, a shovel and snow chains in the vehicle.

Avoid parking under high trees or where there is danger of falling rocks, ice or snow.

Tips about maintenance

Pay attention to control lamps on dashboard, they indicate the current condition of your car.

Tyres are a priority for safe, comfortable and fuel-saving driving. Check them regularly, replace them if they are damaged or worn.

The most important rule on roads is to see and be seen. Check your lights and reflectors.

Do not skip regular check-ups and have your vehicle serviced once in a year:

- Depending on the type of your vehicle, check and exchange oil regularly.
- Do not forget to replace the air filter regularly.
- Clean regularly the air-conditioning and keep it in good condition.

If you do not drive regularly, take a short ride at least once in a week. It will help to preserve the engine, tyres and brakes in good condition and you will recharge the battery. A car used only occasionally is usually more vulnerable to failures.

Tips for preventing theft

Do not leave the vehicle unattended when the engine is on – not even for a minute.

After leaving the vehicle, activate the anti-theft system.

Consider using another security device, such as a mechanical one.

Always keep the vehicle locked, even during driving.

Always take the keys from the vehicle, even if parking on private ground. Close the windows and sliding top.

If you park on a public road at night, find a spot close to a streetlight.

Never leave registration documents, other documents or valuables in the vehicle.
